

OIL THOSE HINGES arthritis relief drops

Disease/Health Issue Explanation: Rheumatoid arthritis is a chronic inflammatory disorder that affects joint linings and can cause painful joints and joint deformity. Pets with rheumatoid arthritis experience muscle and joint pain with stiffness (usually at its worst after inactivity and in the mornings), inflammation, fatigue and possible change in appetite.

Product Explanation: OIL THOSE HINGES is a natural homeopathic blend specifically for supporting the symptoms of rheumatoid arthritis in pets – in particular joint stiffness, inflammation and pain. It is a popular choice for owners of elderly pets and those who have been diagnosed with arthritis.

Purchase Options: OIL THOSE HINGES rheumatoid arthritis relief drops are available in 2 options:

1. Pump action bottle

2. Refill bottle

The 50ml pump action bottle is the first purchase as it contains the pump action head. The 50ml refill bottle is a replacement for the body of the pump action bottle.

Dosing Instructions: 1 pump = 1 dose. From then on, if your pet drinks from their water bowl regularly, pump 2 doses into a clean water bowl daily. Alternatively, pump 1 dose onto a small piece of healthy treat twice daily. This product is safe for long-term use.

Expectations: Next to 'bring back the ZOOMIES', OIL THOSE HINGES has been the second longest tested formulation. ZOOMIES has hit its 25 year anniversary in 2023, of trialling and usage... and the OIL THOSE HINGES formulation is only really a couple of years younger than that.

OIL THOSE HINGES have the added actives associated with bone and degeneration, that

ZOOMIES don't have. ZOOMIES is great post-surgery, for general wear and tear and the ordinary bangs and bumps of life – but OIL THOSE HINGES is for those who have the more permanent condition of joint degeneration and inflammation. Arthritis isn't a curable condition – but it can be greatly aided through lifestyle, nutrition, appropriate exercise and supplementation.

OIL THOSE HINGES is an exceptionally well-trialled formulation, and it has brought much comfort to pets suffering joint degeneration – beginning first of all with our dog Jake, back in the late 1990s. Jake, who underwent surgery for serious injuries, was given a limited lifespan (maximum of 5 years) and with poor motor skills that would shut down more and more, during that time. Defying the odds, he lived approximately 10 years longer than forecast – frequently getting the zoomies... right up until his eyesight significantly faded, making the zoomies feel unsafe for him. He ran around like a puppy until his eyesight didn't allow it any longer. He displayed none of the characteristics of having arthritis – except a very visibly deformed leg. And yet this did not slow him down.

Symptomatically, you can expect to see your pet's movement to be much less painful, stiff and rigid. They can enjoy ordinary activity much more comfortably – and quite quickly after starting on the drops.

Maintenance: OIL THOSE HINGES rheumatoid arthritis relief drops are safe for long-term use. Pump 2 doses into a clean water bowl daily to maintain your pet's results.

Dispensing: OIL THOSE HINGES rheumatoid arthritis relief drops are dispensed in 50ml aluminium bottles with pump action dispensing. This is a deliberate move away from traditionally prepared remedies where drops are dispensed by a self-limiting dropper. The pump action prevents bacterial contamination (that easily occurs when administering drops into an animal's mouth through a dropper), as well as providing a measured dose. 1 pump = 1 dose. Each 50ml bottle contains 130 doses.

OIL THOSE HINGES rheumatoid arthritis relief drops are:

- entirely non-toxic and safe for use for any animal but not recommended for animals 12 weeks or under as it may loosen stools,
- safely used alongside current prescription medication and supplementation,
- safe for use in pregnant and lactating animals,
- made in New Zealand, from products sourced in New Zealand,
- guaranteed for a shelf-life of 2 years.

Storage: The remedy must be stored in a cool place, away from direct sunlight, heat and strong smells, as this is proven to break down the efficacy of the product. An ideal storage space is a bedroom drawer or a kitchen cupboard away from strong smelling substances (e.g. spices) and heat (e.g. where the sun hits or where the kettle is boiled). As with conventional medicine, the optimal temperature is 10-20 degrees Celsius, for storage. Do not store in the refrigerator.

Product Ingredients:

OIL THOSE HINGES rheumatoid arthritis relief drops are prepared in a base of vegetable glycerine and spring water. Other ingredients included are:

Calcium phosphorus, Kali muraticum, Ruta grav, Natrum phos and sulphate, and Rhus tox.

Other Useful Protocols that Operate Alongside OIL
THOSE HINGES rheumatoid arthritis relief drops are:

Arthritis is a chronic, ongoing condition. It can be managed and eased, but it isn't something we can look to cure. As such, helpful protocols are based around management and best practice. Some ideas are:

- a. Try to put things in place so that your pet doesn't hurt itself in everyday life activity. **For example, jumping in and out of the car.** If your pet's size admits, you could lift it in and out of the car, or offer a ramp to make entering and exiting the vehicle easier and less stressful on joints.
- b. If your pet is overweight, look at **shedding some kilos** so their joints aren't so burdened.
- c. Make sure you are engaging in **age-appropriate exercise** too. Dogs are doers... and they may love the thrill of the chase - but there may be ways you can engage them without potential physical trauma.
- d. There are some **dietary changes** that may help, for example, the addition of whole fish might help. Oily fish are renowned for their joint

support abilities... or maybe you could add a fish oil supplement, mussel extract or dried fish snacks to their diet. Good oils can greatly aid joint support – you just need to be careful with proportions. It can also aid weight gain.

ROAR recommends addressing every possible avenue to aid joint mobility as overall health is such a factor in quality of life.

Frequently Asked Questions:

- What if I give more than 1 pump in a dose? Will it hurt them?

No – not at all.

- I don't think I gave my pet a full pump of drops as a dose. Will it still be effective?

Yes – the dose doesn't need a full pump to be effective.

- How long will it take to see results?

As with all homeopathic remedies, you should see results within 6 doses. The newest symptoms will leave first and the oldest symptoms will take the longest to fade. A general rule of healing is that it takes a month

for every year a pet has had a particular symptom, for it to subside.

ALWAYS CONSULT YOUR VETERINARIAN IF YOU HAVE ANY CONCERNS ABOUT YOUR PET'S WELL-BEING OR IF YOU BELIEVE YOUR PET IS SUFFERING.
